

## Parent Viewer. . .

If you have a student in 4th, 5th or 6th grades, you can view their grades online by going to the school's website: [marcelluscs.org](http://marcelluscs.org) and clicking on parent resources, then clicking on the new URL address or clicking on Powerschool Internet Viewer Link.

Instructions have gone home with all 4th graders and all new students. If you have trouble logging into powerschool please contact the office for assistance.

## Building a strong partnership with your child's teacher right away. . .

Have you ever watched children riding on a seesaw? They have to work together. If one child gets off, the other can't ride. That's a good way to think about your relationship with your child's teacher. If you work together, you can build a strong partnership.

This partnership starts when you fill out the forms your child brings home on the first day of school. The teacher needs to know how she can contact you. If your contact information changes, let the school know. You should also find time to talk with the teacher about your child. Plan to attend parent -teacher conferences. If you can't come to this event, ask the teacher if you can meet at another time.

It's also important that you share information about your child with the teacher. Open communication is one key to your child's success.
